WOOOTRIP COMMUNITY STANDARDS

1. What are the WOOOTRIP Community rules?

The Standards of WOOOTRIP Community (hereinafter Community Standards) together with the General Access Conditions and Use of the application and the Privacy Policy are a set of terms and conditions that regulate the access to / and use of the application, its content and services.

The Community Standards establish permitted and prohibited uses in relation to the services offered to the application's Registered Users. You should read carefully before completing your profile within the WOOOTRIP community and always remember them while accessing and availing the app's Services.

Access to and use of the application, its content and Services by Users imply unconditional acceptance of all the legal terms and conditions upon which the application is downloaded by user and that USER ACKNOWLEDGES TO HAVE READ UNDERSTOOD AND AGREED TO IN FULL. If you disagree do not download the application.

If you have any questions you can contact us at the following email electronico_info@woootrip.com and we will be happy to assist you.

2. What services are available to registered users?

The registered user can enjoy an Own Personal Space where he/she can set up their profile, host comments and recommendations on the city wall, share, discuss other users' contents, click wooop-ins / wooop-outs in the establishments chosen in that city where they are traveling so that others can know user's location and start a private chat, via a courier service only and exclusively between Registered users (hereinafter Registered User Account).

Currently, Member Account Services are set as follows:

In the WoooTrip screen the city where the User is located and the

entrance wall to that city shall appear, allowing the registered user on that screen to insert comments, recommendations and / or initiate a Wooop-in process at a shop or while exploring nearby places and Woopies clicking on Browse and give Yups clicking Yup it in places that user wants to recommend.

In the My Wall Screen, Users can see who has Woooped-in, who are the city hosts, they will be able to chat exchanging opinions and meeting others, and those who consult it will receive notifications of new travelers staying in city to which the wall belongs, as well as the posibility of filtering messages by nationality or travel plan.

In the Profile Screen, the User can view the profile options, visualize users who User has previously blocked in chat and unlock if desired, see the WoooTrip information, help options, and the possibility to logout. User can also edit their profile, clicking on edit allowing User to put a status, choose a travel plan, optionally place an image of him/herself or an avatar that can be changed at any time, use aliases, place name, age, sex, city and country. User can also display a preview of how their profile will appear to other users. Certain information from User's profile will be published for other users (picture, name, sex, age and length of stay) so we encourage you to use nicknames and avatars that prevent you from personal identification. The personal information User chooses to voluntarily publish is under User's own responsibility exonerating the Company from any associated liability.

On the Wooopin Screen or Icon, Users may Wooop-in into a hotel in the city, so others can know User's location and route plan and start a conversation via private chat. If User wooops-in, other registered users may assume that User is staying there and know User's location. It is important for you to know that when you activate this feature by performing a voluntary action, you expressly consent to your location data being shared with other users by allowing your view on map.

When User activates the functionality Wooop-out, by voluntary action, User expressly consents to User's location data being shared with other users and they can know how long User will presumably be hosted on a given hotel in a city.

It is possible that global Wooopin data and Recommendations sites or places of interest in a particular city may be shared with third parties for statistical and / or Service improvement purposes. Never identifying individual Users and keeping them safe and anonymous.

On the Screen and / or Chat Icon User can exchange private messages and / or initiate a private chat only with registered Users, view another user's profile or block a user. The chat feature can be activated in two ways from the entrance of another user's wall or Woooping-into an establishment.

There will be a list of all comments, recommendations and Wooop-ins that have been issued by User and / or other users on the wall of each city.

User agrees that the information to be provided and / or accessible in the application and its services will be for information or guidance purposes only and that the use made of it is at User's sole risk and will not demand any responsibility associated with any decisions based on the information provided by WOOOTRIP and / or obtained through the application or the Site.

User acknowledges and agrees that access, information display and / or content offered by the application, Site shall always be strictly for personal purposes, ie, private and never for commercial use. Access to the Site, as well as access and use of the services offered by the application DOES NOT involve the granting of an industrial property license and /or intellectual license, nor any authorization whatsoever on the Contents, copying, distribution, public communication, nor anything interactively provided in another Site and / or application other than the WOOOTRIP application.
