COOKIES POLICY

1. Does WOOOTRIP use Cookies and / or similar technologies?
WOOOTRIP uses cookies or similar technologies (storage devices and / or data recovery and / or anonymous identifiers) ie small amounts of information, text files, which are stored in your browser, mobile device or other device so that the web server or application remembers certain information already stored about your visits to this website, application, type of connection, connection location, requested language, session identification, data authentication, so that subsequently it can be accessed, recovered and used. Cookies and / or similar technologies can be generic or belong to third parties. Generic ones serve to facilitate the implementation and use of the application and its services, and allows us to find out if you've connected before; chosen language; connection location; used device; identifying the application features mostly used and which you like most.

2. What types of cookies and / or similar technologies do we use?
Cookies and / or storage devices or data recovery or similar which our company uses are of generic technical nature, customization, security and third party, analytical and tracking that allow us to obtain information about downloads and uses of the application , user behavior, application positioning.

Techniques
Allow the user to navigate through an application and use of different options or services that make the web site or application available to user.

Customization and Settings
Allow the user to access the website and / or application with some predefined characteristics (language, browser type, regional settings).

Security
Protect the application from attacks and / or malicious activity.

Identification and authentication
Allow the identification and recognition of the user to personalize their experience each time he / she connects to the application. Allow identification of the user session and requests, as well as those that identify and authenticate the user, and those that save the name of users already registered in the application.

Analysis and tracking
Are those that allow us to obtain information about downloads and uses of the application and user behavior by analyzing your browsing habits and help us to compile statistics on the application. We use Google Analitycs service provided by Google, Inc., with headquarters at 1600 Amphitheatre Parkway, Mountain View (California), CA 94043, United States allowing website and / or application owners to comprehend how users interact within their web site and / or application, by tracking the application users' behavior.

The Google Analytics Service is used to analyze user's browsing habits, collecting information anonymously, without identifying individual users at any time. The user's name shall never be associated to the navigation data.
__utma: serves to distinguish users and sessions and count how many times a user visits the website. Expiry 2 years.
_utmb: used to determine new sessions-visits, time of arrival. Expiry in 30 minutes.
_utmc: used to calculate the end of the browser session. It is removed when changing web or closing browser.

_utmz: records the traffic source that explains how the user has reached the site. Expiry 6 months.

The information generated by Google about your use of the website and / or application, as well as reports of website and / or application activity and the provision of services related to website and / or application activity and use of the Internet, shall be directly transmitted and stored by Google on United States servers. Google may also transfer this information to third parties when required to do so by law, or when said third parties process the information on Google's behalf. Google will not associate your IP address with any other data held by Google. Google Analytics does not collect any personal data about Site and / or application users. By using the website and / or application you are confirming your knowledge of the uses of Google Analytics cookies and consent to Google processing your data in the manner and for the purposes described above.

You can refuse data or information treatment, by rejecting the use of cookies, setting your browser and / or mobile device for that purpose. This may affect the functionality of the website and / or application making certain services limited even not available.
